ACADEMIC AUDIT REPORT

For the year

2017-2018

Academic year started in the month of **June 2017**, number of new enrolled students for **1st BDS** is **98** whereas **18 1st yr PG** students (3 students for 6 departments). Total number of students including 1st year, 2nd year 3rd year, 4th year summer winter, repeater students, interns and PG students is **511**. Following is the academic performance of the institute for the academic year 2017-2018.

Academic calendar & master time table for BDS & MDS academic curriculum was announced at the start of year. Every department has successfully followed & completed the scheduled academic events.

All the assessment exams were successfully conducted as per circulate scheduled time table. Required academic data for university exam was submitted on time. UG & PG practical exam were successfully conducted.

All the data for this academic year is satisfactory more number of research works & interdisciplinary work is expected in forthcoming academic year

Academic calendar & master time table for BDS & MDS academic curriculum was announced at the start of year. Every department has successfully followed & completed the scheduled academic events.

Academic performance was hampered due to pandemic situation, still we managed to conduct online/off line classes and exams according to situation.

Required academic data for university exam was submitted on time.

All the data for this academic year is satisfactory. Only thing to be improved further is research activities and interdisciplinary approach. More number of research works & interdisciplinary work is expected in forthcoming academic year.

Academic calendar & master time table for BDS & MDS academic curriculum was announced at the start of year. We are trying to regularize academic year after pandemic. Due to late admission actual working will be different than the institutional calendar. Every department has successfully followed & completed the scheduled academic events.

All the assessment exams were successfully conducted as pre circulate scheduled time table. Required academic data for university exam was submitted on time.

All the data for this academic year is satisfactory. This year was more satisfying in research activities 15 students and staff got scientific awards in different events, still we need to work on more interdisciplinary work and proper documentation of it. More number of research works & interdisciplinary work is expected in forthcoming academic year
