OBJECTIVES OF COURSE

▶ Participants will be

More confident

Develop positive attitude towards profession

More focused approach

successful in life

Introduction

This **Practice Management Course** was offered by MIDSAR College Latur.

Why are few people roaring in practice and few feel they have stuck in wrong profession? Though people have same degrees and are in the same city and locality one grows and others only survive or perish? Why not all toppers in college are leading practitioners and most of people who are failures in college are failures in practice in city? Do you have these questions and do you want to get answers for this questions you need to attend this course.

Objectives of the Training were:

1. To teach soft skills needed for running practice.
2. To give knowledge about how our clinic ambience, staff presentation will grow practice.
3. To teach how dressing of doctor and staff matters in practice growth.
4. Different marketing strategies for practice growth and many more.

All business have only 20 percent people happy and rest just killing time or are frustrated. This shows that the profession is not a problem it's a normal trend in all profession. So changing profession or cursing luck is not the solution. We have to learn the

Bangam
Principal
M. I. D. S. R. Dental College
LATUR

science behind this successful people. So to learn the science, you need to join the course. The knowledge required to be topper in academics and to run a clinic are totally different. Do you know what you learned in college 5 years in BDS and 3 years in MDS account for 12.5% of income (Domain skills), rest 87.5% income comes from other things (Soft skills) we never learnt. So people who are toppers in college are not always winners in practice because its only 10% part of science learned about earning. Few people who we feel are lucky in both are not lucky but have unknowingly learnt the art from their life experiences or parents or some other way. This skill once learned will be helpful at any time in life and to manage problems in life in different phases other than practice. Like once you learn swimming you can swim in well, beach or sea. So if you are confused as the course will be useful to you or not at this stage as you have not planned still about life you should still do it. Knowledge once gained can be used many times and as and when needed so learning is a continuous process

Value Added Course for Cleanliness and Environment Committee – 2017-18

Introduction: A green and clean atmosphere is important to live a peaceful and healthy life. We can easily help our environment heal by avoiding hazardous things and accepting and adopting a simpler lifestyle. Use of alternating resources or renewable sources is only way out to live sustainable with environment. And also by lowering carbon footprint.

The objectives of the committee are to instill the sustainable life concept in the minds of younger generation, to protect the environment maintain clean and green by lowering carbon footprint, and to ensure our campus students enroll for an active participation for committee activities.

This course was organized under Cleanliness and Environment Committee of Maharashtra Institute of Dental Sciences and Research (Dental College) Latur.

Eligibility: All BDS students and Interns

Intake: 50 students

Venue: Maharashtra Institute of Dental Sciences and Research (Dental College) Latur

Learning resources: Models, Videos, PowerPoint

Activity: Related to committee

Module One – 4 Hours

Session	Time	Speaker
Session I- Lecture on Hazards of tobacco	1 Hour	Dr. Tejashree Mantri
Session II- Lecture on Air Quality and Pollution	1 Hour	Dr. Shrikant Kendre
Session III- Lecture on Occupational Safety	1 Hour	Dr. Sheeraz Badal
Activity – Tree Plantation	1 Hour	Dr. Somnath Gitte

Module Two -- 4 Hours

Session	Time	Speaker
Session I- Lecture on Importance of Hand washing.	1 Hour	Dr. Amol Doiphode

Value Added Course for Cleanliness and Environment Committee – 2017-18

Session II- Lecture on Rain water harvesting	1 Hour	Dr. Ashwini Biradar
Session III- Lecture on Biomedical waste management	02 Hour	Dr. Vijayalaxmi

Module Three – 4 Hours

Session	Time	Speaker
Session I - Lecture on Minor Accidents and PPE	1 Hour	Dr. Amol Doiphode
Session II - Lecture on Management of general waste	1 Hour	Dr. Praveen Dhorepatil
Session III - Lecture on Tree Plantation	1 Hour	Dr. Bhagwat Kendre
Session IV - Activity	1 hour	Dr. Somnath Gitte

Module four – 4 Hours

Session	Time	Speaker
Session I- Lecture on Human Impact on the Environment	1 Hour	Dr. Ashwini Biradar
Session II- Lecture on Importance of training and awareness	1 Hour	Dr. Vijayalaxmi

Women's Complaint Committee

Gender Sensitization A Value-Added Course 2017

This course was offered by Women's Complaint committee MIDSR College Latur.

Gender sensitivity was not about pitting women against men. On the contrary, education that was gender sensitive benefits members of both sexes. It helped them determine which assumptions in matters of gender were valid and which were stereotyped generalizations. Gender awareness required not only intellectual effort but also sensitivity and open-mindedness. It opened up the widest possible range of life options for both women and men.

Objectives of the Training:

1. To sensitize the participants on Gender issues.
2. To generate awareness about the gender related issues, vulnerability of women and men.
3. To provide knowledge on government schemes, acts and rights related to women.
4. To help in facilitation of Social Action through Social Action Committees to address the Gender based social issues.

Eligibility-All First Year BDS Students, undergraduate and post graduate students, staff can join the course.

Course schedule – it comprised of four modules of four hours each within stipulated time period.

Course starts by September of every year. A variety of learning resources were utilized in terms of lectures with power point presentation, & videos.

Objectives of course

Introduction

This Practice Management Course was offered by MIDSR College Latur.

Why are few people roaring in practice and few feel they have stuck in wrong profession? Though people have same degrees and are in the same city and locality one grows and others only survive or perish? Why not all toppers in college are leading practitioners and most of people who are failures in college are failures in practice in city? Do you have these questions and do you want to get answers for this questions you need to attend this course.

Objectives of the Training:

- To teach soft skills needed for running practice.
- To give knowledge about how our clinic ambience, staff presentation will grow practice.
- To teach how dressing of doctor and staff matters in practice growth.
- Different marketing strategies for practice growth and many more.

All business have only 20 percent people happy and rest just killing time or are frustrated. This shows that the profession is not a problem it's a normal trend in all

Rangan
Principal
M. I. D. S. R. Dental College
LATUR

profession. So changing profession or cursing luck is not the solution. We have to learn the science behind this successful people. So to learn the science, you need to join the course. The knowledge required to be topper in academics and to run a clinic are totally different. Do you know what you learned in college 5 years in BDS and 3 years in MDS account for 12.5% of income (Domain skills), rest 87.5% income comes from other things (Soft skills) we never learnt. So people who are toppers in college are not always winners in practice because its only 10% part of science learned about earning. Few people who we feel are lucky in both are not lucky but have unknowingly learnt the art from their life experiences or parents or some other way. This skill once learned will be helpful at any time in life and to manage problems in life in different phases other than practice. Like once you learn swimming you can swim in well, beach or sea. So if you are confused as the course will be useful to you or not at this stage as you have not planned still about life you should still do it. Knowledge once gained can be used many times and as and when needed so learning is a continuous process.

Value Added Course for Cleanliness and Environment Committee – 2018-19

Introduction: Cleanliness and Environment Committee loves the environment and are proud of it. We at the committee protect biodiversity by preserving the environment. We educate on minor sacrifices which are important in earth healing and are also possible, thereby providing opportunities to make a change in ones lives. Eco friendly products provide an alternate path for sustainable living.

The objectives of the committee are to instill the sustainable life concept in the minds of younger generation, to protect the environment maintain clean and green, to have an active participation for committee activities.

This course was organized under Cleanliness and Environment Committee of Maharashtra Institute of Dental Sciences and Research (Dental College) Latur.

Eligibility: All BDS students and Interns

Intake: 50 students

Venue: Maharashtra Institute of Dental Sciences and Research (Dental College) Latur

Learning resources: Models, Videos, PowerPoint

Activity: Related to committee

Module One – 4 Hours

Session	Time	Speaker
Session I- Lecture on Hazards of tobacco	1 Hour	Dr. Tejashree Mantri
Session II- Lecture on Air Quality and Pollution	1 Hour	Dr. Shrikant Kendre
Session III- Lecture on Occupational Safety	1 Hour	Dr. Praveen Dhorepatil
Activity – Tree Plantation	1 Hour	Dr. Somnath Gitte

Module Two -- 4 Hours

Session	Time	Speaker
Session I- Lecture on Importance of Hand washing.	1 Hour	Dr. Amol Doiphode
Session II- Lecture on Rain water harvesting	1 Hour	Dr. Ashwini Biradar
Session III- Lecture on Biomedical waste management	2 Hour	Dr. Vijayalaxmi

Kangam

Women's welfare and grievance committee
Gender sensitization A Value-Added Course 2018

This course was offered by Women's welfare and grievance committee MIDSR College Latur. Gender sensitivity was not about pitting women against men. On the contrary, education that was gender sensitive benefits members of both sexes. It helped them determine which assumptions in matters of gender were valid and which were stereotyped generalizations. Gender awareness required not only intellectual effort but also sensitivity and open-mindedness. It opened up the widest possible range of life options for both women and men.

Objectives of the Training:

1. To sensitize the participants on Gender issues.
2. To generate awareness about the gender related issues, vulnerability of women and men.
3. To provide knowledge on government schemes, acts and rights related to women.
4. To help in facilitation of Social Action through Social Action Committees to address the Gender based social issues.

Eligibility-All First year undergraduate students joined the course.

Womens welfare and grievance committee

Gender sensitization A Value-Added Course 2019

This course was offered by Women's welfare and grievance committee MIDSR College Latur.

Gender sensitivity was not about pitting women against men. On the contrary, education that was gender sensitive benefits members of both sexes. It helped them determine which assumptions in matters of gender were valid and which were stereotyped generalizations. Gender awareness required not only intellectual effort but also sensitivity and open-mindedness. It opened up the widest possible range of life options for both women and men.

Objectives of the Training:

1. To sensitize the participants on Gender issues.
2. To generate awareness about the gender related issues, vulnerability of women and men.
3. To provide knowledge on government schemes, acts and rights related to women.
4. To help in facilitation of Social Action through Social Action Committees to address the Gender based social issues.

Eligibility-All First year undergraduate students joined the course.

Course schedule – it comprised of four modules of four hours each within stipulated time period.

Course starts by September of every year. A variety of learning resources were utilized in terms of lectures with power point presentation, & videos.

Participants will be

More confident

Develop positive attitude towards profession

More focused approach

succeed in life

Introduction

This Practice Management Course was offered by MIDSAR College Latur.

Why are few people roaring in practice and few feel they have stuck in wrong profession? Though people have same degrees and are in the same city and locality one grows and others only survive or perish? Why not all toppers in college are leading practitioners and most of people who are failures in college are failures in practice in city? Do you have these questions and do you want to get answers for this questions you need to attend this course.

Objectives of the Training were:

- To teach soft skills needed for running practice.
- To give knowledge about how our clinic ambience, staff presentation will grow practice.
- To teach how dressing of doctor and staff matters in practice growth.
- Different marketing strategies for practice growth and many more.

All business have only 20 percent people happy and rest just killing time or are frustrated. This shows that the profession is not a problem it's a normal trend in all

Sangam
Principal
M. I. D. S. R. Dental College
LATUR

profession. So changing profession or cursing luck is not the solution. We have to learn the science behind this successful people. So to learn the science, you need to join the course. The knowledge required to be topper in academics and to run a clinic are totally different. Do you know what you learned in college 5 years in BDS and 3 years in MDS account for 12.5% of income (Domain skills), rest 87.5% income comes from other things (Soft skills) we never learnt. So people who are toppers in college are not always winners in practice because its only 10% part of science learned about earning. Few people who we feel are lucky in both are not lucky but have unknowingly learnt the art from their life experiences or parents or some other way. This skill once learned will be helpful at any time in life and to manage problems in life in different phases other than practice. Like once you learn swimming you can swim in well, beach or sea. So if you are confused as the course will be useful to you or not at this stage as you have not planned still about life you should still do it. Knowledge once gained can be used many times and as and when needed so learning is a continuous process.

Value Added Course for Cleanliness and Environment Committee – 2020-21

Introduction: At Cleanliness and Environment Committee, we teach that conserving our environment and thus planet starts from home with electrical appliances, conserving water, reusage of water, composting, reducing plastic waste, using a programmable thermostat at night and what not !!! We are surrounded by nature and live amongst them and need to respect nature.

The objectives of the committee are to instill the sustainable life concept in the minds of younger generation, to protect the environment maintain clean and green, to have an active participation for committee activities.

This course was organized under Cleanliness and Environment Committee of Maharashtra Institute of Dental Sciences and Research (Dental College) Latur.

Eligibility: All BDS students and Interns

Intake: 50 students

Venue: Maharashtra Institute of Dental Sciences and Research (Dental College) Latur

Learning resources: Models, Videos, PowerPoint

Activity: Related to committee

Module One – 4 Hours

Session	Time	Speaker
Session I- Lecture on Hazards of tobacco	1 Hour	Dr. Priyanka
Session II- Lecture on Air Quality and Pollution	1 Hour	Dr. Shrikant Kendre
Session III- Lecture on Occupational Safety	1 Hour	Dr. Gopal Nagargoje
Activity – Tree Plantation	1 Hour	Dr. Somnath Gitte

Module Two -- 4 Hours

Session	Time	Speaker
Session I- Lecture on Importance of Hand washing.	1 Hour	Dr. Amol Doiphode
Session II- Lecture on Rain water harvesting	1 Hour	Dr. Ashwini Biradar
Session III- Lecture on Biomedical waste management	2 Hour	Dr. Vijayalaxmi

Sangan

Women's welfare and grievance committee
Gender sensitization A Value-Added Course 2020

This course was offered by Women's welfare and grievance committee MIDSR College Latur. Gender sensitivity was not about pitting women against men. On the contrary, education that was gender sensitive benefits members of both sexes. It helps them determine which assumptions in matters of gender are valid and which are stereotyped generalizations. Gender awareness requires not only intellectual effort but also sensitivity and open-mindedness. It opens up the widest possible range of life options for both women and men.

Objectives of the Training:

1. To sensitize the participants on Gender issues.
2. To generate awareness about the gender related issues, vulnerability of women and men.
3. To provide knowledge on government schemes, acts and rights related to women.
4. To help in facilitation of Social Action through Social Action Committees to address the Gender based social issues.

Eligibility-All undergraduate and post graduate students, staff can join the course.

Course schedule – it comprised of four modules of four hours each within stipulated time period of four month. Course starts by July of every year. A variety of learning resources were utilized in terms of lectures with power point presentation, & videos.

OBJECTIVES OF COURSE

Participants will be

Introduction

This **Practice Management Course** was offered by MIDS R College Latur.

Why are few people roaring in practice and few feel they have stuck in wrong profession? Though people have same degrees and are in the same city and locality one grows and others only survive or perish? Why not all toppers in college are leading practitioners and most of people who are failures in college are failures in practice in city? Do you have these questions and do you want to get answers for this questions you need to attend this course.

Objectives of the Training were:

- To teach soft skills needed for running practice.
- To give knowledge about how our clinic ambience, staff presentation will grow practice.
- To teach how dressing of doctor and staff matters in practice growth.
- Different marketing strategies for practice growth and many more.

All business have only 20 percent people happy and rest just killing time or are frustrated. This shows that the profession is not a problem it's a normal trend in all

Ranganu
Principal
M. I. D. S. R. Dental College
LATUR

profession. So changing profession or cursing luck is not the solution. We have to learn the science behind this successful people. So to learn the science, you need to join the course. The knowledge required to be topper in academics and to run a clinic are totally different. Do you know what you learned in college 5 years in BDS and 3 years in MDS account for 12.5% of income (Domain skills), rest 87.5% income comes from other things (Soft skills) we never learnt. So people who are toppers in college are not always winners in practice because its only 10% part of science learned about earning. Few people who we feel are lucky in both are not lucky but have unknowingly learnt the art from their life experiences or parents or some other way. This skill once learned will be helpful at any time in life and to manage problems in life in different phases other than practice. Like once you learn swimming you can swim in well, beach or sea. So if you are confused as the course will be useful to you or not at this stage as you have not planned still about life you should still do it. Knowledge once gained can be used many times and as and when needed so learning is a continuous process.

**Keep it Clean,
Keep it Green!**

Value Added Course for Cleanliness and Environment Committee – 2021-22

Introduction: It is our duty to maintain the mother nature clean and green, whether we like it or not because we are experiencing global warming. We also know that we cant live without our natural resources and thus protecting them for our future generations is necessary. We also need to maintain clean and green to be healthy in and out of the house. Preserving our forest means preserving our ecosystems, its diversity, protecting animals and much more than we could enlist!!!

The objectives of the committee are to instill the sustainable life concept in the minds of younger generation, to protect the environment maintain clean and green, to have an active participation for committee activities.

This course was organized under Cleanliness and Environment Committee of Maharashtra Institute of Dental Sciences and Research (Dental College) Latur.

Eligibility: All BDS students and Interns

Women's welfare and grievance committee
Gender sensitization A Value-Added Course 2021

This course was offered by Women's welfare and grievance committee MIDSR College Latur. Gender sensitivity was not about pitting women against men. On the contrary, education that was gender sensitive benefits members of both sexes. It helped them determine which assumptions in matters of gender were valid and which were stereotyped generalizations. Gender awareness required not only intellectual effort but also sensitivity and open-mindedness. It opened up the widest possible range of life options for both women and men.

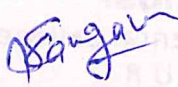

Objectives of the Training:

1. To sensitize the participants on Gender issues.
2. To generate awareness about the gender related issues, vulnerability of women and men.
3. To provide knowledge on government schemes, acts and rights related to women.
4. To help in facilitation of Social Action through Social Action Committees to address the Gender based social issues.

Eligibility-All First year undergraduate students joined the course.

Course schedule – it comprised of four modules of four hours each within stipulated time period.

Course starts by September of every year. A variety of learning resources were utilized in terms of lectures with power point presentation, & videos.

Introduction

This Practice Management Course was offered by MIDSAR College Latur.

Why are few people roaring in practice and few feel they have stuck in wrong profession? Though people have same degrees and are in the same city and locality one grows and others only survive or perish? Why not all toppers in college are leading practitioners and most of people who are failures in college are failures in practice in city? Do you have these questions and do you want to get answers for this questions you need to attend this course.

Objectives of the Training were:

- To teach soft skills needed for running practice.
- To give knowledge about how our clinic ambience, staff presentation will grow practice.
- To teach how dressing of doctor and staff matters in practice growth.
- Different marketing strategies for practice growth and many more.

All business have only 20 percent people happy and rest just killing time or are frustrated. This shows that the profession is not a problem it's a normal trend in all profession. So changing profession or cursing luck is not the solution. We have to learn the

science behind this successful people. So to learn the science, you need to join the course. The knowledge required to be topper in academics and to run a clinic are totally different. Do you know what you learned in college 5 years in BDS and 3 years in MDS account for 12.5% of income (Domain skills), rest 87.5% income comes from other things (Soft skills) we never learnt. So people who are toppers in college are not always winners in practice because its only 10% part of science learned about earning. Few people who we feel are lucky in both are not lucky but have unknowingly learnt the art from their life experiences or parents or some other way. This skill once learned will be helpful at any time in life and to manage problems in life in different phases other than practice. Like once you learn swimming you can swim in well, beach or sea. So if you are confused as the course will be useful to you or not at this stage as you have not planned still about life you should still do it. Knowledge once gained can be used many times and as and when needed so learning is a continuous process.

LEARN TO EARN ELIGIBILITY CRITERIA WAS

- All Interns and Post Graduate Students

Teaching and Non-teaching staff

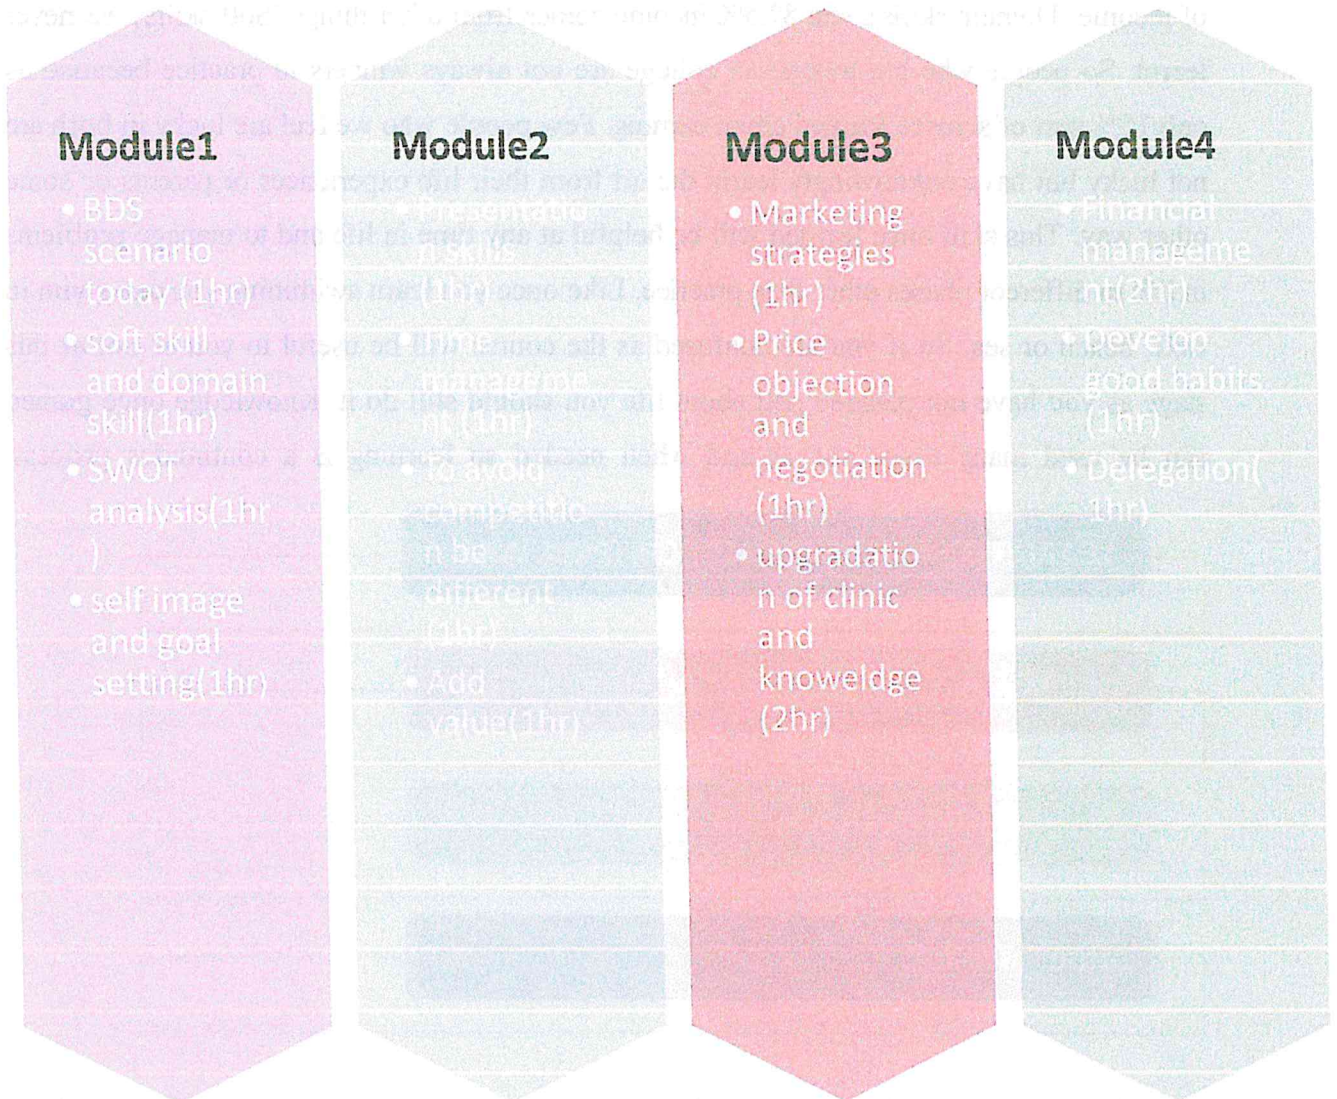

other faculties

COURSE SCHEDULE – It comprised of four modules of four hours each within stipulated time period of two days. Course was conducted by 12th and 13th May of 2022 A variety of learning resources were utilized in terms of lectures with power point presentation & videos.

COURSE FEES: IT WAS FREE
