Course outcome

The four day module would equip a clinician with skills to perform quality endodontics therapy in anterior, premolar and molar teeth.

- Learn preoperative radiographic and clinical assessment of cases.
- Understand tooth morphology and perform conservative access opening with confidence.
- Learn how to proceed with orifice locating, canal patency and establish accurate working length.
- Employ rotary shaping instrumentation prudently and complete optimal disinfection protocols.
- Learn obturation and core buildup techniques.
- Aesthetic rehabilitation.
- Dental ergonomics and case management in endodontics.

The Department Conservative dentistry & Endodontics of MIDSR dental college, Latur conducted an Add On Course on “Endodontics-Today & Tomorrow” on 1st, 8th, 15th& 22nd January 2018.

The Course was beneficial to interns & postgraduate students to enhance their clinical skills & knowledge regarding Operative & endodontics procedures. The course was free of any cost.

Students also developed their clinical skills required to practice operative & endodontic procedures & learn about professional ethics. This course included 5 modules wherein they got practical exposure of the work culture, integrated learning and experience in which their knowledge and skills would be applied and assessed in a real or simulated workplace context.

The first course of year 2018.

A total of 42 students took admission for the course starting from 1st Jan 2018 there were 5 sessions conducted by professors from department of conservative dentistry & endodontics. The sessions were divided into the following categories-

1. Diagnosis & treatment planning in endodontics
2. Application of rubber dam & access opening – recent advances
3. Concepts of NiTi Instrumentation
4. Working length & advances in rotary endodontics
5. Irrigation protocols & its activation
6. Failure of root canal treatment 3D root canal Obturation
7. Regenerative Endodontics
8. Tooth discoloration & recent advances in bleaching
9. Dental operating microscope advances & application
10. Dental Ergonomics
11. Case management in endodontics

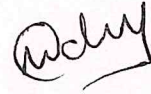

The illustrious speakers included Dr Sunanda Gaddalay, Dr Anita Kale, Dr Ramchandra Kabir, Dr Amol Badgire, Dr. Praveen Dhore, Dr. Madhuri Agarwal, Dr. Abhishek Badade, Dr. Ajit Shinde.

The valedictory Function of the program was conducted on 22nd January 2018. The valedictory was attended by all the participants.

Course outcome

The four day module would equip a clinician with skills to perform quality endodontics therapy in anterior, premolar and molar teeth.

- Learn preoperative radiographic and clinical assessment of cases.
- Understand tooth morphology and perform conservative access opening with confidence.
- Learn how to proceed with orifice locating, canal patency and establish accurate working length.
- Employ rotary shaping instrumentation prudently and complete optimal disinfection protocols.
- Learn Obturation and core buildup techniques.
- Aesthetic rehabilitation.
- Dental ergonomics and case management in endodontics.

Course Report

The Department Conservative dentistry & Endodontics of MIDSR dental college, Latur conducted an Add On Course on “Endodontics-Today & Tomorrow” on 7th, 14th, 21st& 28th January 2019.

The Course was beneficial to interns & postgraduate students to enhance their clinical skills & knowledge regarding Operative & endodontics procedures. The course was free of any cost.

Students also developed their clinical skills required to practice operative & endodontic procedures & learn about professional ethics. This course included 5 modules wherein they got practical exposure of the work culture, integrated learning and experience in which their knowledge and skills would be applied and assessed in a real or simulated workplace context.

A total of 42 students took admission for the course starting from 7th Jan 2019 there were 5 sessions conducted by professors from department of conservative dentistry & endodontics. The sessions were divided into the following categories-

1. Diagnosis & treatment planning in endodontics
2. Application of rubber dam & access opening – recent advances
3. Concepts of NiTi Instrumentation
4. Working length & advances in rotary endodontics
5. Irrigation protocols & its activation
6. Failure of root canal treatment 3D root canal Obturation
7. Regenerative Endodontics
8. Tooth discoloration & recent advances in bleaching
9. Dental operating microscope advances & application
10. Dental Ergonomics
11. Case management in endodontics

The illustrious speakers included Dr Sunanda Gaddalay, Dr Anita Kale, Dr Ramchandra Kabir, Dr Amol Badgire, Dr. Praveen Dhore, Dr. Madhuri Agarwal, Dr.

Sangane
Principal

Abhishek Badade, Dr. Ajit Shinde.

The valedictory function of the program was conducted on 28th January 2019. The valedictory was attended by all the participants.

Overall, the success of the course was heightened by the enthusiasm and participation of students, Contribution of the Head of the Department & professors and finally the efforts put by the college staff and team.

Course Report

The Department Conservative dentistry & Endodontics of MIDS dental college, Latur conducted an Add On Course on "Endodontics-Today & Tomorrow" on 4th, 11th, 18th & 25th January 2021.

The Course was beneficial to interns & postgraduate students to enhance their clinical skills & knowledge regarding Operative & endodontics procedures. The course was free of any cost.

Students also developed their clinical skills required to practice operative & endodontic procedures & learn about professional ethics. This course included 5 modules wherein they got practical exposure of the work culture, integrated learning and experience in which their knowledge and skills would be applied and assessed in a real or simulated workplace context.

A total of 42 students took admission for the course starting from 4th Jan 2021 there were 5 sessions conducted by professors from department of conservative dentistry & endodontics. The sessions were divided into the following categories-

1. Diagnosis & treatment planning in endodontics
2. Application of rubber dam & access opening – recent advances
3. Concepts of NiTi Instrumentation
4. Working length & advances in rotary endodontics
5. Irrigation protocols & its activation
6. Failure of root canal treatment 3D root canal Obturation
7. Regenerative Endodontics
8. Tooth discoloration & recent advances in bleaching
9. Dental operating microscope advances & application
10. Dental Ergonomics
11. Case management in endodontics

The illustrious speakers included Dr Sunanda Gaddalay, Dr Anita Kale, Dr Ramchandra Kabir, Dr Amol Badgire, Dr. Praveen Dhore, Dr. Madhuri Agarwal, Dr. Abhishek Badade, Dr. Ajit Shinde.

The valedictory function of the program was conducted on 25th January 2021. The valedictory was attended by all the participants.

Overall, the success of the course was heightened by the enthusiasm and participation of students, Contribution of the Head of the Department & professors and finally the efforts put by the college staff and team.

Thank you!!!!

Course Report

The Department Conservative dentistry & Endodontics of MIDSR dental college, Latur conducted an Add On Course on "Endodontics-Today & Tomorrow" on 6th, 13th, 20th & 27th January 2022.

The Course was beneficial to interns & postgraduate students to enhance their clinical skills & knowledge regarding Operative & endodontics procedures. The course was free of any cost.

Students also developed their clinical skills required to practice operative & endodontic procedures & learn about professional ethics. This course included 5 modules wherein they got practical exposure of the work culture, integrated learning and experience in which their knowledge and skills would be applied and assessed in a real or simulated workplace context.

A total of 42 students took admission for the course. Starting from 6th Jan 2022 there were 5 sessions conducted by professors from department of conservative dentistry & endodontics. The sessions were divided into the following categories-

1. Diagnosis & treatment planning in endodontics
2. Application of rubber dam & access opening – recent advances
3. Concepts of NiTi Instrumentation
4. Working length & advances in rotary endodontics
5. Irrigation protocols & its activation
6. Failure of root canal treatment 3D root canal Obturation
7. Regenerative Endodontics
8. Tooth discoloration & recent advances in bleaching
9. Dental operating microscope advances & application
10. Dental Ergonomics
