## E-content development workshop for faculty

There has been increasing demands of internet and online literary for any faculty and for any educational stream, dentistry and medicine is not an exception. The faculty is also expected to create various types of e-content/ e-courses to facilitate learning and also facilitate deliver systems.

The IT Department of the MIMSR Medical College, Latur, has organized a week long workshop on E-content Development for the faculty of MIDS R Dental College, Latur, from 06/06/2022 to 11/06/2022.

The program was well received and attended by 28 faculty members spread across all the departments. The program was organized by Rahul Jante, Network Administrator, and his team. The nitty-gritties of e-content development was explained in detail and individualized attention was given to implement and try out the same during the workshop. On each day it was taken from 9.30 am to 11.30 am.

## Introduction of FDP

The emerging trend all over the world is towards more individualized and flexible forms of learning.

Rapid development in the computer technology.

Increasing use of computers in teaching and learning.

Content production in the electronic format is the need of the hour.

## E-content?

Electronic-content which is also known as **Digital Content** refers to the content or information delivered over network based electronic devices or that is made available using computer network such as **INTERNET**.

E-content includes all kinds of content created and delivered through various electronic media.

### Objectives of the FDP

At the end of the course, the participant teachers  
(**Content-Writer/Subject-Matter-Expert**) will be able to:

*Develop e-teaching materials in a creative way  
without IT expertise.*

*Enable exploration of more usable presentation in  
the context of e-learning content creation  
through animations, audio, videos, models,  
practical examples & simulations.*

### Objectives of the FDP

At the end of the course, the participant teachers  
(**Content-Writer/Subject-Matter-Expert**) will be able to:

*Develop e-content using contemporary ICT*

*Maintain uniformity and follow appropriate  
standards for interoperability*
