Maharashtra institute of dental sciences and research (dental college) uses TCS-ion for the administration of academic activities. Institute has subscribed to TCS-ion Digital Campus and digital learning solution which includes a learning management system (LMS). TCS Ion Digital Campus and learning solutions are focused on overall academic activities with the use of digital platforms. LMS is for the organization and presentation of curricular learning materials, for monitoring of student learning, academic performance and teaching information about faculty members. TCS Ion Digital Campus and learning solutions are focused on students learning, skilling, and overall academic performance. MIDS R Dental College is committed to delivering quality and value-based academic environments to its stakeholders through its digital campus solution.

TCS iON LMS is a learning management system (LMS) is designed to help our institute to deliver and manage training and education. The LMS provides a variety of features that make it easy to create and deliver training courses, track student progress, and provide feedback. TCS iON LMS is a cloud-based solution, can be accessed from anywhere with an internet connection. The LMS is also mobile-friendly, so faculty members access it from their smart phones and tablets. LMS tracks student progress through courses and provides reports on student performance. It also provides a variety of ways for instructors to provide feedback to students. This feedback is provided in the form of comments, grades, and surveys.

TCS iON LMS is a powerful tool that can help our institute to deliver and manage training and education. The LMS provides a variety of features that can help organizations track employee training and development, such as course completion tracking and reporting. The LMS is a cloud-based solution, as organizations can add or remove users as needed. Overall, TCS iON LMS is powerful tools that can help our organization to improve the quality, effectiveness of employee training and development programs.

TCS iON tracks student progress and attendance through courses and provides reports on student performance. This information can be used to identify students who are struggling and to provide them with additional support. TCS iON supports social learning, which allows employees to collaborate and share knowledge with each other.

TCS iON LX is a learning experience platform (LXP) that helps our organization to deliver and manage training and education to faculties. TCS iON LX helps to increase employee engagement in training and development programs. The LXP is mobile-friendly and easy to use, which makes it accessible to employees from anywhere.
