

CROSS CUTTING ISSUES ENRICHED COURSES/PROGRAMS

BDS course curriculum designed by DCI is well enriched with cross cutting issues, it is noted that Subjects like behavioral sciences, which is useful to develop communication skills, should also be introduced in the first year itself and spread over the undergraduate course. An introduction to Public Health Dentistry & Preventive Dentistry also will be useful to develop the concept of Commitment to community. The instruction in behavioral sciences should ideally commence before the students come in contact with the patient and shall be carried out by the departments of Public Health Dentistry & Preventive Dentistry and Pedodontics & Preventive Dentistry.

This notification from the DCI gazette ensures that the BDS & MDS course is designed incorporating cross cutting issues. To enrich the student with various human, cultural and community based issues MIDS Dental College organizes various social and spiritual programs by involving students.

According to dental council of India notification 2017 the objectives to be achieved by the candidate on completion of the MDS course are classified as

- (a) Knowledge (Cognitive domain)
- (b) Skills (Psychomotor domain)
- (c) Human values, ethical practice and communication abilities

Human values, ethical practice and communication abilities in MDS course curriculum includes-

1. Adopt ethical principles in all aspects of practice
2. Foster professional honesty and integrity;
3. Deliver patient care irrespective of social status, caste, creed, or religion of the patient;
4. Develop communication skills, to explain various options available and obtain a true informed consent from the patient;
5. Provide leadership and get the best out of his team in a congenial working atmosphere;
6. Apply high moral and ethical standards while carrying out human or animal research;
7. Be humble and accept the limitations in his knowledge and skill and to ask for help from colleagues when needed;
8. Respect patient's rights and privileges including patient's right to information and right to seek a second opinion.
