Immunization Policy Document

Police documents regarding preventive immunization of students, teachers and hospital staff likely to be exposed to communicable disease during their clinical work.

Policies documents regarding preventive immunization of students, teachers and hospital staff likely to be exposed to communicable diseases during their clinical work.

Dentistry is classified as category one level profession for blood born infectious diseases according to occupational safety and health administration (OSHA) standards. Students who are enrolled in this profession may expose to blood born infectious diseases. Exposure is likely to occur through infectious materials or it can be occur through aerosols formed during use of airtor. Vaccination is best way to boost immunity to airborne and blood born infectious diseases and is essential part of prevention and infection control. All faculty members, employees, and students who come in direct or indirect contact with infectious materials must have received vaccination.

MIDS R DENTAL COLLEGE AND HOSPITAL is taking every possible step that is helping in prevention and infection control and their by promoting health to all students as well patients. All the students enrolled for the course is mandatory to receive immunization.
