E-governance Policy Document

E-governance for institutes has changed the way an academic organization manages its records and processes, making the process simple, properly organized, and error-free. This is meant to make the system simple and time-saving. It promotes transparency, well-timed data dissemination, administrative efficiency, and public service in all elements of education. Our institute has implemented e-governance in its operational areas, including:

1. Development of the academic programme:

TCSiON:

Shangans

Principal
M. I. D. S. R. Dental College
LATUR

2. Finance and Accounts :

Tally:

Tally is the computerized accounts system. It is employed to monitor the institutions' financial activities. It is software that serves a couple of purposes, along with accounting and inventory management.

3. Administration:

Biometric System:

As a part of the computerization and digitization of the activities of the Institute, a Biometric system is introduced in 2014 for recording the attendance of the staff and students of the Institute. Accordingly, biometric machines are installed in the main office of the Institute to enable the staff to register their attendance by recording their finger impression in the machines.

E-Mail Messenger:

The institution has given all the departments, and staff members individual email addresses to ease communication among various stakeholders.

Website:

The institution has a website where it provides information to its stakeholders about its facilities, academic programs, and placement opportunities.

CCTV Surveillance:

CCTV monitoring helps to improve campus security. This facility provides an extensive array of efficient campus infrastructure security solutions.

4. Admission and Assistance of Students:

Admission

Our institute has implemented a variety of e-governance measures, one of which is the use of portals run by regulatory agencies such as DCI, MUHS, and DMER. For the admissions process, the DMER portal is utilized.

Slim-Library Management System

SLIM is an online library management system that automates all processes in our library and provides an interactive user experience. SLIM takes a modular approach and provides the essential modules such as Acquisition, Cataloguing, Circulation, and Periodicals to help you acquire, catalogue, and circulate books, films, sound recordings, drawings, clippings, articles, reports, letters, brochures, periodical publications, and more

5. Examination:

University Exams and Digital Evaluation Center:

We use the portal provided by MUHS Nashik for university-related exam tasks like exam forms, hall tickets, practical marks entry, managing CAP and DEC for digital evaluation, etc,

6. Patient Management :

Pappyjoe Patient Management Software:

PappyJoe Software is used for Patient Registration, Patient Management, Appointment Schedules, Storing and Retrieving of Electronic Medical Records (EMR), messaging, e Billing, Expense Management, and Medical Practice Management Information systems.
