Convener
Dr. Poonam Nagargoje

**ACADEMIC COMMITTEE
MIDSR DENTAL COLLEGE, LATUR**

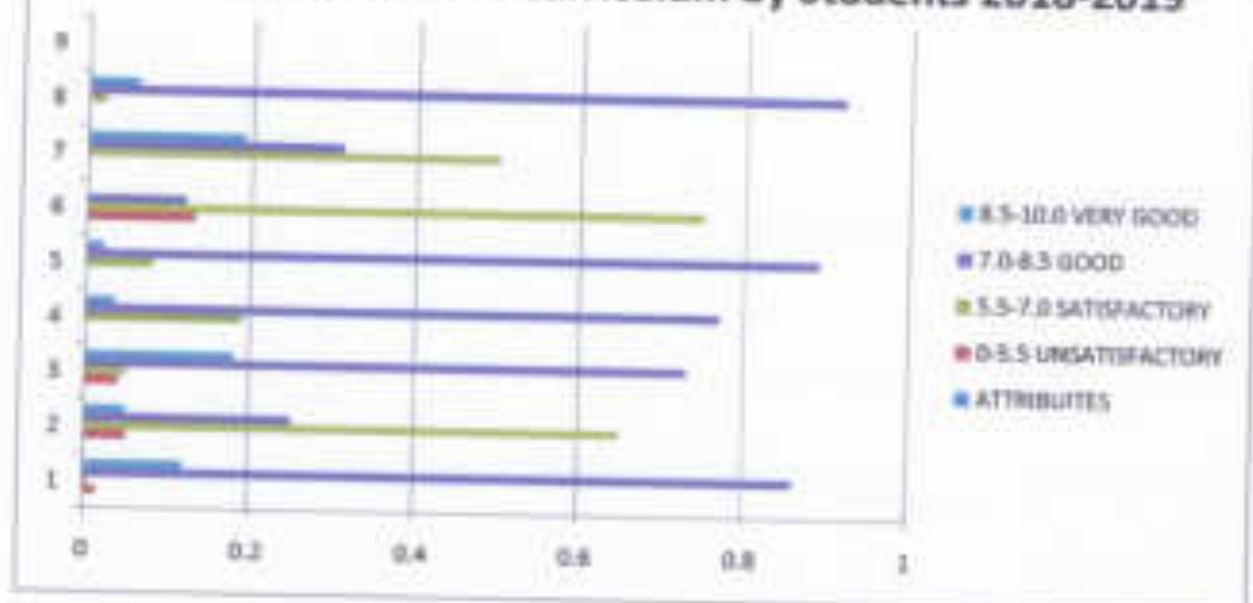

Academic committee of the institute collects feedback on curriculum every year from UG & PG students and from different stake holders such as students, alumni, faculty, and practitioners manually. The forms of students and parents are circulated class wise. All students were informed to submit the filled forms to their class representative within a week. It is class representative's responsibility to collect the forms from students and submit it to the academic committee convener. Practitioner's feedback was circulated among MIDSR staff and they have told to collect feedbacks from their practitioner friend groups. Due to difficulty in communication and connectivity alumni feedback were collected from local alumni's. Questionnaire is designed to measure candidate's perception about academic coursework, evaluation process, teaching experience and overall college functioning.

The feedback forms and the summery of responses was discussed in meeting of academic committee, the discussion and action taken details are as follows

**ACADEMIC COMMITTEE
MIDSR DENTAL COLLEGE, LATUR**

Academic committee of the institute collects feedback on curriculum every year from UG & PG students and from different stakeholders such as students, alumni, faculty, employers, Practitioners manually. This year due to pandemic situation online forms were circulated. The message is sent to the students on their cell phones about filling the feedback forms at the end of the semester. Questionnaire is designed to measure candidate's perception about academic coursework, seminar or fieldwork classes, teaching experience and overall college functioning. Also Feedback from Parents and Alumni is collected in the same way.

The feedback forms and the summery of responses was discussed in meeting of academic committee, the discussion and action taken details are as follows

Feedback analysis report on curriculum by Interns

I agree to respond the asked feedback, I understand the purpose and nature of this feedback, and I am participating voluntarily

of responses

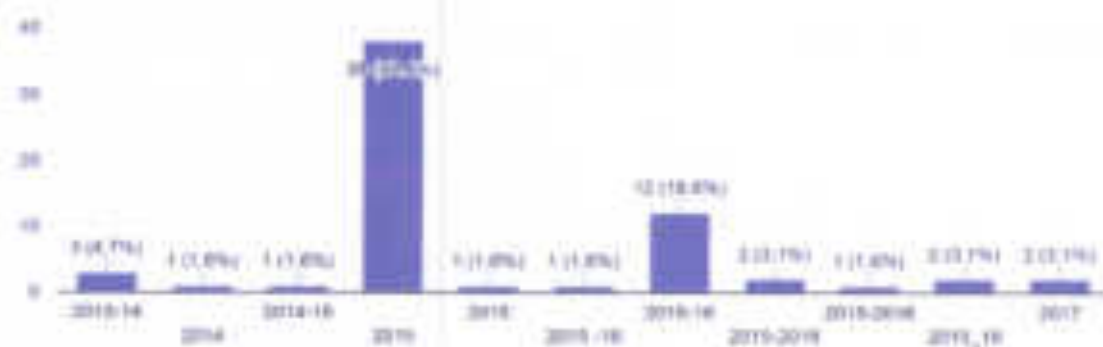

64 out of total 78 interns responded to the feedback

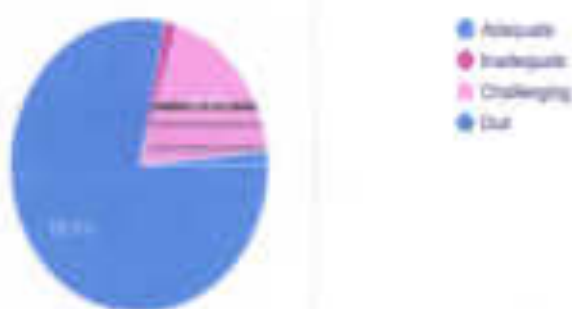

MIDSR

Principal
M. I. D. S. R. Dental College,
LATUR

Year of joining
64 responses

The curriculum for the BDS course was *
64 responses

78.1% interns voted for adequacy of the BDS curriculum. 18.8% found the curriculum challenging and 1.6% interns registered their votes for inadequacy of the curriculum, and 1.6% feels that the curriculum is dull.

Action taken- though majority responses show that the curriculum is adequate, institute will keenly emphasis on the 1.6% where interns have marked the curriculum as dull. As an institute we cannot change the curriculum but can make it interesting to learn. So it was decided that we should imply more simple yet effective methods in teaching.

Knowledge shared in the course was

78.1% feels that the knowledge shared through the curriculum is adequate, 4.6% finds the knowledge shared is challenging, 9.4% feels it is inadequate. And 7.8% feels the knowledge shared is outdated.

ACTION TAKEN-

Due to limitations as an institute we cannot interfere in the structured curriculum by the MUHS University. Only thing we can do is making the curriculum easy to understand.

How much of the syllabus was covered in the class?

50% votes for 70-85% syllabus is completed in the academic year, 28.1% voted for 85-100% syllabus is completed, and 21.9% says only 55-70% is completed.

ACTION TAKEN

According to data from academic committee syllabus has been completed, we need to go in more detail with this matter. Academic council convenor will discuss the matter with all departments and report to the committee till next scheduled meeting.

Principal
M. I. D. S. R. Dental College,
LATUR

What is your opinion about the library material and facilities for the course?
64 responses

81.8% are satisfied with the adequacy of the available library materials, 14.1% feels the material is inadequate, 3.1% finds the available material poor.

ACTION TAKEN- convenor will talk with the library committee and took a overview of the needed library sources and available sources in institutional library. It will be reported in detail the next meeting.

What effect do you think the internal assessment will have on your course grade?
64 responses

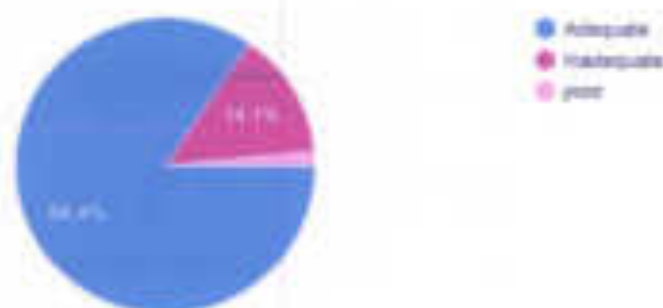

68.8% feels internal assessments helps to improve 25% feels it is sometimes effective 6.2% finds the internal are very effective in improving the grades.

ACTION TAKEN

Internal assessments are important to check the progress of the students. All assessments should be held on time and evaluations should be done strictly.

Overall confidence level as self assessed to practice dental skills

64 responses

On self assessment 84.4% adequate confidence level to practice dental skills, 14.1% finds inadequate confidence and 3.1 % reported poor confidence level.

ACTION TAKEN-

Identification of slow learners should be done in individual departments and needed measures to improve practical skills should be done. It should be mandatory to conduct post end exams for interns to evaluate their progress.

What is your opinion on the impact of the CDE's conducted in the college?

64 responses

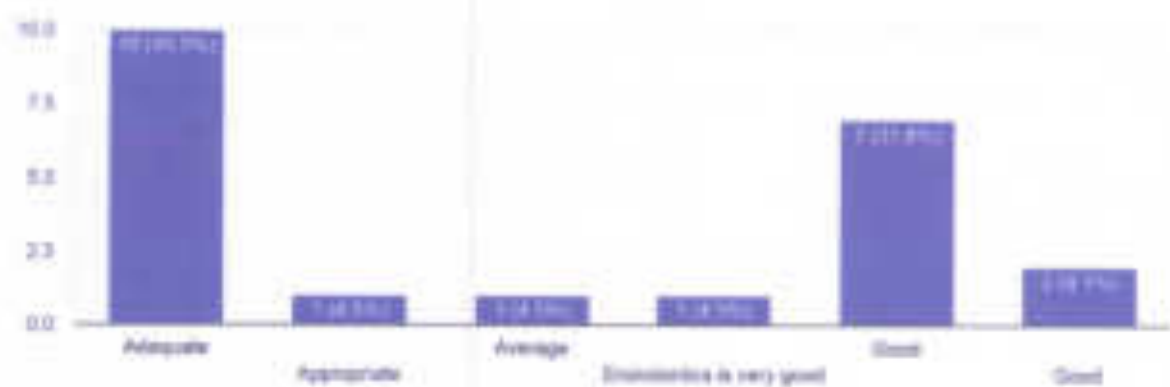

46.6% reported that the CDE conducted helps in overall improvement, 7.8% feel no impact at all, 35.9 % feels CDE are sometimes effective and 9.4% states that CDE are very important on overall improvement.

ACTION TAKN -

Convener should inform all departments to take a feedback for topics of interest from students posted in respective departments and try to arrange CDE according to need of students.

M.L.D.S.R. Dental College,
LATUR

effect of discipline maintained in department

SI responses

Discipline in the department is very necessary to maintain the quality of work according to 66.7% depressing according to 19.6% reduces work efficiency according to 13.3% increases the fear to approach according to 0%

ACTION TAKEN

According to statistics some students find the discipline as a barrier to approach to the staff. departmental environment should be healthy in all aspects.

SUGGESTIONS

- Increase in number non teaching staff
- Reduce the fear to approach staff (0)
- For patient entry records or work done book one person should appointed
- Provide us all the personal Protective equipments , please reduce the college losses , make it from 10-4pm.
- Please reduce the implant charges for patient or allow patient to pay it in installments.
- Please provide us proper para-medical staff.
- Radiographic department is away from our department , please provide us with a separate RVG unit.
- No room for Improvement
- Provide all necessary instruments , personal protective equipment , plz provide separate RVG unit.

Principal
M. I. D. S. R. Dental College,
LATUR

- One person should be kept for patient entries in case paper and register. It reduces the efficiency.
- Proper trained para medical staff is must for effective sterilization and disinfection protocols.
- Provide PPE kit and other necessary facilities regarding covid-19
- deepal@unmc@gmail.com
- Repair Some New instruments to increase work efficiency
- Update exam pattern, Remove case post exercise as nobody is performing it in private practice.
- No suggestion
- Should add about thesis
- Need modifications in the curriculum
- Update exam pattern, remove case post exercise as nobody practicing in private practice.
- Dressing room
- Need more ventilation with air conditioners
- Practical work period should be short
- Provide personal protective instruments, proper paramedical staff for proper sterilization and disinfection of
- instruments, separate XVG unit in department.
- There should be interdepartmental case presentation meetings.
- Provide proper ppe kits and masks for personal protection. College timings are too tiring
- Crk [] []
- Need more facilities
- Should include recent advancement in the syllabus
- Provide everyone with proper Personal protective kit and provide a proper cubicle for every pg student.
- Reduce the college timings. Provide us with proper sanitization products.
- provide trained staff
- publications should be done.

ACTION TAKEN

All HODs and PG guides have been informed about the suggestions from students, principal sir will call a meeting to find solutions on students need. about hygiene maintenance we are taking of necessary precautions according to protocol

22.1% 1st year students 13.8% 2nd years, 20.7% 3rd years, 42.8% final year student responded to the form.

ACTION TAKEN -

As it was an online form, due to various factors students were not approachable. If we are planning to take online feedback in future follow-up should be taken daily by academic committee from respective departmental in charges, mentors and class CR. It should be seen that maximum student will respond to the form.

70.7% students agree with that knowledge base of the teachers is very good. 9.6% feels it is satisfactory, 18.4% says it is good. 1.3% students find it unsatisfactory.

ACTION TAKEN-

Though the results are satisfactory and assure that all faculty members are doing their work at its best, still we should try to keep the graph high always. We will try to provide all the needed facilities to improve our teaching ability.

Principal

LATUR

Feedback by Faculty in curriculum

Over all statistics are satisfactory. Library committee has been included to be in contact with all the departments and make all the reading material available without any difficulty.

Overall curriculum of the department

53 responses

According to 37.7% overall curriculum is satisfactory, according to 34% it is very good, 28.2% says it is good

ACTION TAKEN

Over all statistics are satisfactory

Participation/interest of students in the subject

53 responses

26.2% feels interest of students is satisfactory, very good according to 32.1%, 33.1% feels it good and 7.2% feels it is unsatisfactory

ACTION TAKEN

Over all statistics are satisfactory

Principal
M. & D. S. R. Dental College,
LATUR

If not satisfactory what is the reason behind it according to you

- Nothing
- No strictness
- Less clinical coverage
- Time period for 1st year falls short if admissions get late
- -
- May be it's dry and difficult subject for the students to understand
- Nothing
- Lack of interest
- satisfactory
- Students take it granted as they know that nobody is going to fail.
- NA
- Willingness of the Students is not there
- Satisfactory
- nothing

ACTION TAKEN

Most of the comments suggest lack of interest of the students.

Anything to be removed

- Lab work is very excess
- No, everything is must and can not be deleted from curriculum
- Betterment exams
- To much quota
- For example Carving from pre-clinical exercises
- Need to rearrange exam pattern
- Oundred materials should be removed from the curriculum

Anything to be added

- Student centred teaching methodology
- Add more treatment techniques. Recent techniques.
- Should be truthfully completed
- Newer treatment modalities
- More clinical work
- Present curriculum is adequate for undergraduates
- Advanced resources to students as well as faculty
- Practise management should be included so that students can know the do's n don't in private practise.
- As far as my subjects are concerned everything is satisfactory
- Current syllabus is more than sufficient
- Orofacial pain and forensic odontology
- Implementation should be strict

Principal
M. J. Z. R. Dental College,
IATUR

Feedback by Faculty on curriculum

- Conference attendance
- Forensic odontology
- Removable appliance delivery for undergraduate students
- Knowledge about Scope in further studies and employability after Graduation
- Training of How to handle emergency in dental clinic
- Patient management and clinical management
- Compulsion to conduct research work in the form of short studies, atleast a UG student should conduct a
- study and should publish a research paper
- Compulsion to submit one problem based planning program
- Compulsory involvement in the extracurricular activities such as field programs, rallies, awareness
- programs etc
- Digital technology and recent advances in materials
- Clinical tips for handling cases
- Add more newer techniques
- Curriculum is adequate

Comments to offer on the course and any other suggestions

- Professional & skillful course
- Add postings in emergency department
- Need to change old teaching protocol
- High time to revise the curriculum by dei
- Course offered is really good
- More of clinical and practical teaching should be done.
- Tenure of the course should be increased by 6 months.
- Attendance of students should be digital and not manageable
- Inadequate knowledge students are not prepared for clinics. Finance related subjects to be added in the
- course
- Participation involvement
- The perception of looking after the subject has to be changed not only from the view of students but from
- the faculties of other branches too
- The subject have weightage in regards of research, ethics and social areas so more importance has to be
- given to the subject and the course need to be made more practical than theoretical
- Need to change old pattern of various technic used due university guidelines
- Really nice course n easy to manage all things
- Should teach all treatment mechanics to students
- Curriculum is good for students in overall understanding and learning. Only suggestions is more practically
- oriented teaching can be adapted to improve the understanding of the student.
- Good course
- Everything is adequate and upto the mark.

Principal
M. I. D. S. R. Dental College
LATU "

Feedback by Faculty on curriculum

- Curriculum is sufficient
- Even in 2020, we still teach 1970s dentistry. We have to change the course syllabus from the scratch and also
- we have to change how we teach not only the curriculum but also importance has to placed on
- teaching/guiding to gain the contemporary clinical skills

After going through the suggestions about the curriculum faculty suggested mainly student centric teaching, refinement in the syllabus with addition of advance techniques, more clinical/practical approach. we will try to be a part of university BOS and raise these topics.

The curriculum for the BDS course is

51 responses

The curriculum of BDS course is Adequate according to 71%, Inadequate according to 13.2%, Challenging according to 11.1% & Dull according to 4.4%

ACTION TAKEN

Over all statistics are satisfactory

Principal
 M. I. D. S. R. Dental College,
 LATUR

Knowledge shared in the course is

11 responses

Knowledge shared in course is Challenging-according to 13.3% ,Adequate according to 52.2%, Inadequate according to 8.9% & Outdated according to 15.6%

ACTION TAKEN

As we have limitations as an institute, we cannot make any changes in curriculum.

Syllabus effective in developing clinical skills

11 responses

Satisfactory- 22.9% Unsatisfactory-5.9% Very Good- 17.6% Needs improvement-21.5%

ACTION TAKEN

More importance should be given on clinical knowledge & practicing skills. As our curriculum has fixed schedule of clinical postings and internship students have enough time to practice and refine clinical skills.

Knowledge about the procedure:

SI response

Knowledge about the procedure is Satisfactory according to 40.0%, Un satisfactory according to 7.0%, Very Good according to 13.3% & Needs improvement according to 39.7%

ACTION TAKEN

Over all statistics are satisfactory.

Communication skills and personal development

SI response

Satisfactory- 44.4% Un satisfactory-17.8% Very Good-15.6% Needs improvement-22.2%

ACTION TAKEN: We are thinking about to start personal development courses under the vision of future need

Attitude towards new challenges

Satisfactory- 31.7%Unsatisfactory- 5.8%Very Good- 23.7%Needs improvement-38.8%

ACTION TAKEN - committee members should keep eye on most use of skill lab by the students to have different techniques. All the staff should have motivational approach towards students.

Knowledge about advanced techniques

71 responses

Satisfactory-26.9%Unsatisfactory-11.0%Very Good-22.2%Needs improvement-39.9%

ACTION TAKEN

Academic committee is encouraging every department to arrange CDE, workshops on advanced techniques, skills or materials. Also we are providing information's about conferences and workshops and encouraging students to attend it.

Ability to display team work and leadership

11 responses

Satisfactory- 54.5% Unsatisfactory- 18.2% Very Good- 20% Needs improvement- 7.3%

ACTION TAKEN

Over all students are satisfactory.

SUGGESTIONS

- Stop manufacturing dentist and create employment.
- The employment also should be such where senior dentist do not exploit the fresher's
- Pitiful situation of dentistry in India. Worst in Maharashtra
- Needs to inculcate clinical base practice
- We need improvement in every aspect because at BDS level we are still practicing some things which people were doing 30-40 yrs ago
- Whole curriculum is outdated and it requires changes in every sector
- BDS curriculum needs to have more of practical approach keeping in mind the recent advances and updating
- Challenges. Students should be taught more about the clinical implications of the knowledge.
- Should have exams on communication skills and finance

ACTION TAKEN

Suggestions were mostly pointing towards need to evaluate and rework on the syllabus keeping future need of students. If we get any chance to suggest in university context we will put it through.

Your suggestions for improvement of curriculum

31 responses

Principal
M. L. D. S. R. Dental College,
LATUR

- Must Teach the recent technology as the conventional techniques are rarely used and the practice knowledge to how to run the practice and how to communicate and convince the patient should be included in the training
- Needs to upgrade with due course of time and need of hour, eg. newer skills has to be included to replace old and outdated pattern. there is a great scope of improvement
- No need of improvement...keep it continues...all the very best
- I dont feel any need of improvement. It is already upto mark
- Inclusion of recent advancements while giving practical knowledge and respective theoretical base
- More advanced areas of dentistry should be included in syllabus, practical knowledge about marketing, finance management, emergency management, and self development skills should be included
- Practical hours should be increased and time span of the degree should be reduced
- I think whatever i am doing in my practice till now, have great influence of my internship (clinical) work. I am very glad that all teachers were very helpful throughout the curriculum. They were excellent in theoretical as well as practice guidance
- Arrange guest lecturers ..for extra improvement
- Involvement of practice based activities for theory should be scaled up
- Basic thing is to let students know that we are better than colleges in metropolitan cities because we are. We have hell lot of scope because of number of patients, but community department needs to work more efficiently and students too.

All the suggestions highlights the points like including advance techniques, more practical base teaching, arranging guest lectures, communication skill, marketing skills improvements. We try to include these valuable suggestions in institutional curriculum

**ACCADEMIC COMMITTEE
MIDSR DENTAL COLLEGE LATUR**

Academic committee of the institute collected feedback on curriculum online from UG & PG students and from different stakeholders such as students, alumni, faculty, employers, practitioners manually. The message is sent to the students on their cell phones about filling the feedback forms at the end of the semester. Questionnaire is designed to measure candidate's perception about academic coursework, seminar or fieldwork classes, teaching experience and overall college functioning. Also Feedback from Parents and Alumni is collected in the same way.

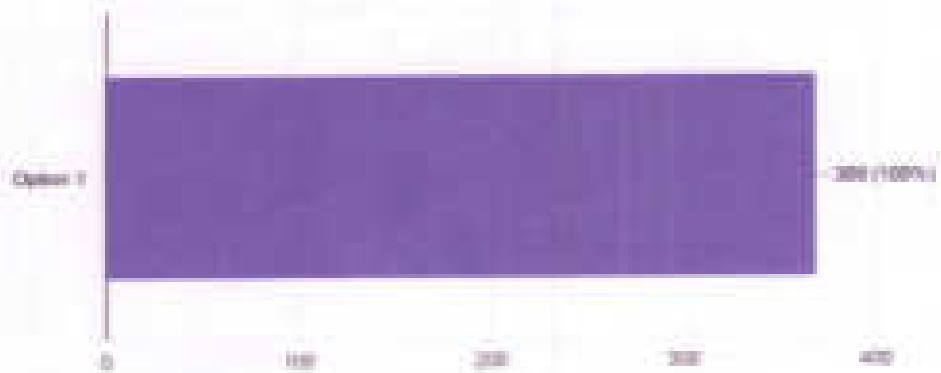

The feedback forms and the summary of responses was discussed in meeting of academic committee, the discussion and action taken details are as follows

ACTION TAKEN REPORT

Feed backs on curriculum were collected from Students, Interns, faculties, practitioners and employers. students were asked to give their feedback on the teaching faculty to evaluate implementation of curriculum. Various questions were asked to evaluate the process like sincerity and communication skills knowledge base and ability to satisfy queries. And any suggestions from student for improvisation. Overall feedback was satisfactory. Some student complained about technical issues in online teaching. These issues were noted and discussed in Academic committee meeting as we are going through pandemic and offline classes are not possible still we will try to overcome this issue. Interns, Alumni, employers and practitioners feedback asked about adequacy of the curriculum to make the students stand in practice. According to feedback current curriculum is adequate still some recent advancements in subject and more attention to be given towards skill development. Parents feedback was overall satisfactory, which is really very encouraging.

What extent were you able to get material for the prescribed reading to? (From library)

All responses

Participation/interest of students in the subject

All responses

- Students attendance should be made strict.
- Regular exams b/w internal assessment be made.
- Need for change in internal assessment exams schedule be considered. The regular pattern is hampering regular theory classes.

- Irregularities in attendance of the students, more percentage of absences still no action has been taken by the colg and dept .
- After posting there interest increases
- Less clinical exposure
- Not all the subjects for all students are interesting... According to me the Staff should make the subject interesting so that students will enjoy and learn the subject and will show the good interest in learning

Anything to be added

- How to manage emergency in Dental Clinic for undergraduates.
- More practical knowledge should be added
- Dental esthetics
- Moral Values
- Clinical case based treatment, Facial Esthetics, Medical emergency management
- Research work can be given more
- Revision classes
- Compulsion in the attendance , strict adoption of rules and regulations of the department such as complete attendance and
- More clinical exposure to UG
- Effective Communication skills
- Curriculum is adequate
- More practical work
- Syllabus is adequate
- Recent advances and clinical uplifting
- Nothing
- Sufficient syllabus at present for U G
- Not needed
- It should be two-way process not one way.
- Live demonstrators
- Seminars for ug
- Group discussions by faculty
- Recent advances like digital technology needs to be add
- Ethics
- More Audiovisual aids needed
- Medico legal aspect in oral and maxillofacial surgery

- Clinical orientation
- Recent trends in the treatment.
- For undergraduates curriculum is designed in a
- Everything is satisfactory to the bds curriculum
- Dental chair management
- Esthetic dentistry and implantology
- Extracurricular activities

Comments to offer on course

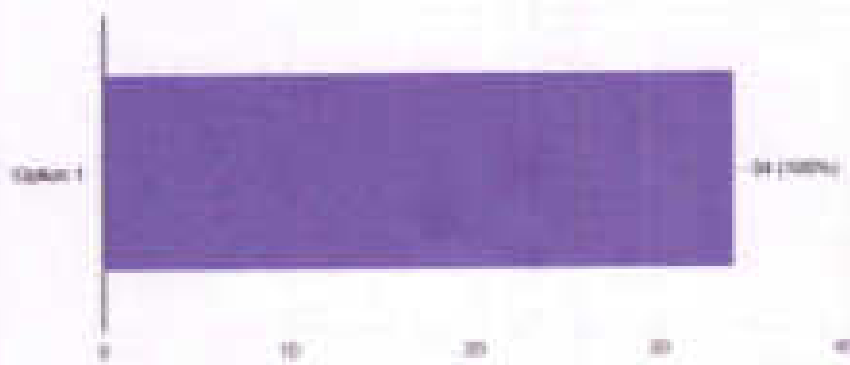

- Sufficient for undergraduate students
- It should inculcate in students to become not only a good dental surgeon but also a good human being.
- Curriculum has to change with time
- Ethics in dentistry
- syllabus should be practical oriented than theory
- Dental Anatomy practical syllabus should be modified considering it's application from clinical point of view
- Considerations towards value addition
- Third BDS students should observe cases of premalignant and malignant lesions clinically and histopathologically for better understanding of the syllabus.
- Course duration is long
- Implementing sterilization protocols in surgical procedures
- More audio visual aids to be useful for describing topics
- Nothing
- Involve more students in seminar & discussions
- Can add rubber dam application teacher for undergraduates
- More practical or clinical orientation should be their
- Overall satisfactory
- Clinical oriented methods
- Course is well designed
- Design of curriculum is good
- Recent advances in dentistry need to be added
- Patient management and communication can be added

ACTION TAKEN REPORT

Feed backs on curriculum were collected from Students, Interns, faculties, practitioners and employers. students were asked to give their feedback on the teaching faculty to evaluate implementation of curriculum. Various questions were asked to evaluate the process like sincerity and communication skills knowledge base and ability to satisfy queries. And any suggestions from student for improvisation. Overall feedback was satisfactory. Students appealed more friendly behavior from staff and concession in quota completion, revision of some difficult topics. These issues were noted and discussed in Academic committee meeting. It was decided to make arrangements for revision of some topics. Every dept should ask students about needed topics to be revised, and departmental atmosphere should be student friendly.

Interns, Alumni, employers and practitioners feedback asked about adequacy of the curriculum to make the students stand in practice. According to feedback current curriculum is adequate still some recent advancements in subject and more attention to be given towards skill development.

Parents feedback was overall satisfactory, which is really very encouraging.

As the institute is affiliated to MUHS Nashik, institute don't have authority to make changes in syllabus. Academic committee will mail MUHS regarding the feedback report.

Chairman
Academic Committee
