Cleanliness & Environment Committee

---

**Annual Report**

**Report for the Year: 2023**

Clean environment is the need of every living organism on the earth. Concern to maintain green and healthy environment is the duty of every person on the earth. The main purpose of cleanliness & Environment committee in our institute is to sensitize the young minds regarding the importance of green environment. With this intention we conduct value added course and celebrated various days.

The following is the report of the day celebrations and courses conducted in 2023 tenure.

**Program:**

<b>Sr. No.</b>	<b>Title</b>
01	World Water Day (22.03.2023)
02	World Environment Day Celebration (05.06.2023)
03	Global Hand Washing Day Celebration (15.10.23)
04	World Soil Day Celebration (07.12.23)

# Report of Global Handwashing Day 2023

Handwashing, also known as hand hygiene is a regular and compulsory act to maintain hygiene. Clean hands can help stop germs from spreading in communities. It is important to promote systemic and long-term behavior change to improve the current statistics of health care facility. We celebrate October 15<sup>th</sup> as Global Handwashing Day to create awareness about the importance of Handwashing. Handwashing or Hand hygiene maintenance is an act to remove viruses/bacteria/microorganisms, dirt and other harmful and unwanted substances. Hand hygiene is central to preventing to spread of infections.

- A. Introduction:** The demonstration was held to create awareness among patients attending OPD of Maharashtra Institute of Dental Sciences and Research, (Dental College), Latur. It was important to emphasize that cleanliness was a daily routine for asepsis.
- B. Circular and Program Plan:** Annexure I.
- C. Report:** Demonstration of handwashing and the importance associated with it is necessary to keep the infection at bay. The education has to continue even to the public regarding health. Hence, demonstration was conducted in Oral Surgery department to create handwashing awareness.
- D. List of participants:** Annexure II
- E. Photographs:**
- F. Overview of the program:** Demonstration will create a picture in audience mind than to just listening. We were successful in creating a picture in our patients mind regarding the same. Patients appreciated our efforts in creating this awareness.

## Report of World Soil Day 2023

There is an increasing demand for our natural resources to be preserved. Soil being one of the important resources in nature puts food on our plates, purifies water, protects us against flood, etc. The soil organisms have an important role in breaking up the complex substances in decaying plants & animals so that they can be used again by living plants. As per UN, the theme for World Soil Day 2023 is “Soil & Water: A source of life”.

### **Introduction:**

As we are aware soil & water are our life support system. Soil anchor roots, hold water & store nutrients. Water supply through soil is vital for both plants & soil organisms. The campaign of World Soil Day 2023 aims to raise awareness on the importance & relationship between soil & water in achieving sustainable & resilient agrifood systems.

### **Report:**

Cleanliness & Environment Committee at Maharashtra Institute of Dental Sciences & Research (Dental College), Latur organized essay competition among students of Institute. 7 students participated in the essay competition. 2 top winners were announced as best essay writers.

### **Circular:**
