Subject: Indian Organ Donation Day on 3<sup>rd</sup> August, 2024

*Dear Colleague*

To further strengthen the healthcare systems, in order to facilitate organ donation and transplantation is among the top priorities of the Government of India. Organ donation is a noble act that offers hope and new lease of life to those suffering from the end stage organ failures. Hon'ble Prime Minister Shri Narendra Modi ji has highlighted the importance of organ donation many times in his Mann Ki Baat programme.

One organ donor can save upto **8 to 9** lives. However, a huge gap exists between patients who require organ transplants and the organ donors that are available. In this context, Govt. of India has established **National Organ and Tissue Transplant Organization (NOTTO)**, an apex organization and similar organizations at regional and state level to provide for an efficient and organized system of organ procurement and distribution in the country and to maintain a national registry of donors and recipients of organs and tissues.

NOTTO celebrates the Indian Organ Donation Day (IODD) every year to spread awareness about organ donation, dispel myths and misconceptions associated with organ donation and motivate and encourage the citizens of the country to donate organs and tissues after death, as well as to imbibe the value of organ donation in their lives.

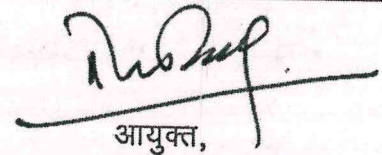

This year, it has been decided to run public awareness campaign in the current year by the name of "**Angdaan Jan Jagrukta Abhiyaan**". As part of the campaign, **3rd August 2024 will be celebrated as the Indian Organ Donation Day** to commemorate the first deceased donor organ transplant, which was also the first Heart transplant done in the country, after promulgation of "*The Transplantation of Human Organs Act*" on 8th July, 1994. The month of **July 2024 (1st - 31st July)** is being organized as the **Organ Donation Month**, wherein many awareness activities have been planned.

**The specific objectives of this year's campaign are:**

- To reduce the demand for organ transplantation by promoting healthy lifestyles & wellness.
- To spread awareness about brain stem death, deceased organ donation, prevention & control of illegal practices related to organ transplantation.
- To bust myths and misconceptions related to organ donation & transplantation.

11	Purpose/aim/objective and outcome of the event	The resolve to maintain mental and physical health was instilled among the students as they welcomed the New Year. Mental health and physical health are interconnected. In the modern world, as we begin the new year, people have lost their sense of self in the midst of mobile TV and internet. It has forgotten to solve the problems that have arisen from this. Anxiety, stress and other physical problems are on the rise. The modern generation is forgetting our culture. Therefore, the purpose of this program was not just to welcome the New Year but also to reflect on socio-economic and cultural factors.
